BUSINESS STARTUP CHECKLIST

1.	ASS	SESSING YOUR OPPORTUNITY (WHAT DO YOU WANT?)
		Determine why you want to start a business Conduct a SWOT analysis to identify your strengths and weaknesses. Decide whether you want to provide a product or a service; build an online business or bricks and mortar. Assess how much capital you have to risk and how long it will last Determine if you want the business to be part-time or full-time. Discuss your plans with family members to ensure they are behind you.
2.	CO	MMITING TO YOUR BUSINESS
		Make a list of business ideas that fit your strengths and interests. Identify businesses that are having success today. Understand the problem(s) your business will solve. Define the market you want to pursue and your target customer. Validate your idea by talking to potential customers about it. Evaluate how customers solve this problem today, as well as what the competition offers. Create a quick financial plan, identifying costs and forecasted sales to see if your capital gets you to a profit.
3.	SET	TING UP YOUR BUSINESS
		Select your business name and search the internet to make sure it's not being used.
		Register a domain name and secure social media profiles for the company. Apply for an EIN with the IRS and local or state business licenses. Decide on a legal structure or business structure and incorporate: Corporation, LLC or Sole Proprietorship. Get your website up and running. Establish your company's accounting plan: hire an accountant, select an accounting system, and a fiscal year. Evaluate and select needed insurance policies for your business: liability, workers comp, or health insurance Open a business bank account and business credit card. Begin networking with pre-marketing materials such as business cards, brochures, or public relations.
4.		Register a domain name and secure social media profiles for the company. Apply for an EIN with the IRS and local or state business licenses. Decide on a legal structure or business structure and incorporate: Corporation, LLC or Sole Proprietorship. Get your website up and running. Begin networking with pre-marketing materials such as business cards, brochures, or public

		Itemize how much capital is required to launch the business and project how long before profitability.
		From this, determine how many months of savings or investment you have to get to breakeven or profit.
		If outside investment is required beyond the founders' savings, complete a business plan.
5.	PL/	ANNING FOR YOUR BUSINESS
		Write an Executive Summary after the other sections of the Business Plan are completed below.
		Complete a Company Overview that includes basic information and a summary of the management team.
		Write a Product Description section describing your products or services and what problems they solve.
		Prepare a Market Analysis section that describes the total market and your target market, specific segment needs, competitive offerings available, and any trends that will affect the analysis.
		Describe an Operating Plan for the business, such as operating hours, number of employees, key suppliers, or seasonal adjustments your business might need to adjust to.
		Create a Marketing and Sales Plan that includes a "Go To Market" or launch plan, pricing, how your business will generate leads, and close new business.
		Build a Financial Plan that shows a break-even analysis, projected profit and loss, and projected cash flows.
6.	SET	ITING UP TO OPERATE
		Find and secure a business location, even home offices need good design. Identify any staffing needs and the profile of employee or contractor that is best. Recruit, interview, hire, and train employees. Identify and set up any needed technology: POS, Email, Phones, CRM, Billing and Payment
		systems Ensure your technology systems are secure with your information or customer information.
7.		systems
7.		systems Ensure your technology systems are secure with your information or customer information. Depending on the business type, identify and partner with the right suppliers.
